

1. As the first step I use a minimal design for this website and this prototype made by Figma as you can see when you open it the wallpaper page is changing automatically and there are many features in this case like hovering for the navigation bar and another button when you move the mouse you can see the changing color and other options after that you can scroll the products

ABOUT

orem ipsum is simply dummy text of the printing and typesetting industry. Lorem ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem ipsum.
